TECHNICAL SKILLS

- Frontend Developer
- Backend Developer
- Manual Testing
- Version Control (Git)
- Responsive Web Development

PROGRAMMING LANGUAGES & TOOLS

- Python
- JavaScript
- TypeScript
- React
- PostgreSQL
- AWS
- Vercel

CORE WORK SKILLS

- Problem Solving
- Team Collaboration
- Analytical Thinking
- Time Management
- Adaptability

PROFILE SUMMARY

Fourth-year BS Information Technology student majoring in System Development with hands-on experience in full-stack web development and manual software testing. Skilled in React, Node.js, Express, PostgreSQL, and AWS. Seeking an internship as a Junior Software Developer or Junior QA Engineer.

EDUCATION AND CERTIFICATIONS

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

PHINMA University of Pangasinan | August 2023 – Present

- Major in System Development
- AWS Fundamentals – Zuiitt Learning Institute (May 2026)
- Certificate of Python Seminar for Freshmen Student. PYTHONIC ALCHEMY: BREWING MAGIC IN CODE.

MAJOR PROJECTS

MyCrewManager

3rd Year Project | June 2025 – November 2025

React | Node.js | Express | PostgreSQL | Prisma | Redis | WebSockets | AI/LLM

Built an AI-powered project management system that analyzes project details, generates backlogs and tasks, supports team chat, and tracks progress in real time.

- Developed frontend interfaces and integrated REST APIs for project, task, and sprint management.
- Implemented real-time collaboration, notifications, and role-based access for team coordination and project visibility.

CHUA SYSTEM

Major Project (Deployed) | January 2026 - Present

React | Node.js | Express | AWS | VS Code

Built a secure business management and monitoring platform for Chua Corporation to centralize invoicing, payment operations, and branch-level oversight.

- Developed secure modules for invoicing, payment management, branch monitoring, and user administration while integrating role-based access control for different user roles.
- Conducted manual quality assurance testing, verified application functionality, identified and documented bugs, and collaborated with the development team to ensure stable deployment on AWS.

LAZO, KEITH ARDEE N.

SYSTEM DEVELOPER | FRONTEND DEVELOPER

MyCrewManager

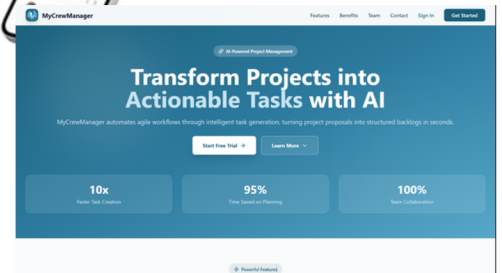

3rd Year Project

React | Node.js | Express | PostgreSQL |

Prisma | Redis | WebSockets | AI/LLM

Role: Web Developer | Frontend Developer

MyCrewManager

MyCrewManager is an AI-powered project management system that analyzes project titles and descriptions to automatically create tasks and backlogs, assign work to members, enable team chat, and help project managers monitor progress in real time.

Chua System

Major Project

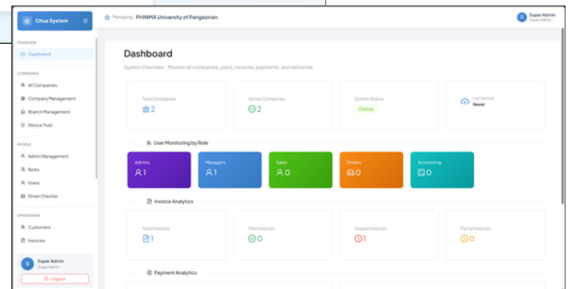

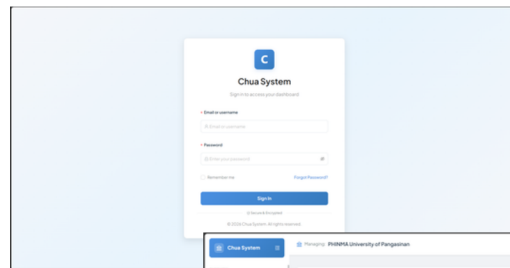

React | Node.js | Express | AWS |

VSCode

Role: Junior Software Developer and

Junior Quality Assurance Engineer

Chua System is a company-focused monitoring and management platform built for Chua Corporation to centralize invoicing, payment tracking, user access control, and audit visibility across branches in one secure system.

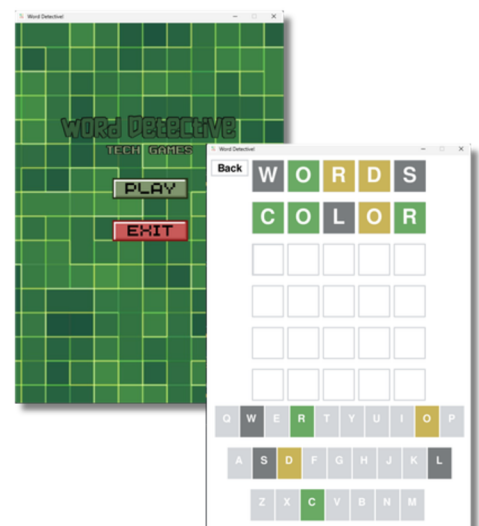

Word Detective

Freshman Project 2022

Python | Visual Studio Code

Role: Project Manager & Lead Developer

LAZO, KEITH ARDEE N.

SYSTEM DEVELOPER | FRONTEND DEVELOPER
